TITLE INDEX

A comparison of two methods for estimating income uncertainty with an application to aggregate consumption behaviour, 701
A Kaldorian approach to Greek economic growth: a comment, 1357
A Kaldorian approach to Greek economic growth: a reply, 1360
A model of income, unemployment and inflation for the USA, 597
A systems approach to the relationship between consumption and wealth, 1165
A two-part sample selection model of British bilateral foreign aid allocation, 1311
Adjustment costs and factor demands in Canadian manufacturing industries, 845
Advertising and the US market demand for beer, 69
Advertising effects in complete demand systems, 1087
An empirical analysis of the unemployment duration of school-leavers, 89
An illfare approach to the measurement of unemployment, 739
An ARIMA model for Canadian union membership growth, 1911–1985, 1035
Application of stochastic simulation and policy sensitivity techniques to a macroeconomic model of Uganda, 1
Applied Economics: institutional publishing performances, 1986–1990, 557
Are flexible exchange rates really more volatile? Evidence from the early 1900s, 1213
Asian-Pacific real exchange rates, 1255
Assessing the impact of economic reform in medical services in the Netherlands, 227
Assessing the relative efficiency of agricultural production units in the Blackland Prairie, Texas, 559
Attendance at Australian Rules football: a panel study, 1053
Australia's industrial R&D expenditure and foreign trade, 545

Branch bank operating costs: evidence from savings banks in Finland, 401

Can the UK exploit the international oil market? A game theoretic approach, 143
Capital punishment and deterrence: a portfolio approach, 635
Capital markets' assessment of airline restructuring following deregulation, 1097
Causes of the forward bias: non-rational expectations versus risk premia, 317
Centralization and the size of government in Canada, 1293
Clean indoor air laws, addiction and cigarette smoking, 193
Competing macro-hypotheses in the United States: A Kalman filtering approach, 389
Consumption, co-integration and varying coefficients: the Australian evidence, 775
Convergence and polarization: testing for an inverted-U relation between growth rates and GDP per capita, 363
Cost competition: new evidence on an old issue, 1241
Cyclical and political influences on the size distribution of income in the US (1959–1989), 169

Demand and shortage of durable consumer goods in socialist countries, 219
Demand for parimutuel horse race wagering with special reference to telephone betting, 137
Determinants of charitable donations in Canada: a comparison over time, 709
Determinants of minority business formation: a detailed industry analysis, 1147
Determinants of parental leave policies, 35
Development of standardized indices for measuring house price inflation incorporating physical and locational characteristics, 1067
Did financial deregulation help consumers? Access to market-yield instruments, 813
Dollar-sterling exchange rate in the 1920s: purchasing power parity and the Norman conquest of $4.86, 803
Dynamic factor demands under imperfect competition: the Greek manufacturing industry 1958–1981, 1009

Econometric estimates of scale economies in Canadian manufacturing, 113
Effect of class size on economies of scale and marginal costs in higher education, 473
Efficiency differences between private and state-owned enterprises in the international petroleum industry, 237
Employee wage growth within the firm: a deferred payment or human capital investment, 347
Endogenous regional agricultural production technologies, 1263
Entry, barriers, exit, and sunk costs: an analysis, 297
Equities and the UK exchange rate, 327
Estimating labour supply disequilibrium with fixed-effects random coefficients regression, 781
Estimating telephone usage elasticities: a shares equation system approach, 1219
Estimating VAR models under non-stationarity and cointegration: alternative approaches for forecasting cattle prices, 207
Evolution of infant and child mortality in Chile: a model, 1173
Ex ante willingness to pay with supply and demand uncertainty: implications for valuing a sea turtle protection programme, 981
Exchange rates, pass-through, and Canadian export competitiveness: an analysis using vector autoregressions, 627
Explaining UK house price inflation 1971–89, 1327

Federal and union job queues: further evidence from the US labour market, 1119
Fiscal dependence on trade taxes and economic development: additional results and a reconciliation of the empirical evidence, 1321
Foreign aid and economic growth: an econometric study of Bangladesh, 541
Foreign and domestic multinational presence in the UK, 745
Functional forms and habit effects in the US demand for coffee, 1203

Gender discrimination and compensating differentials in Sweden, 751
Growth effects of recent structural changes in the Canadian economy: some empirical evidence, 1233

0003–6846 © *1992 Chapman & Hall*

Hazardous waste sites and property values in the state of New Jersey, 647
High-technology exports of EEC countries: persistance and diversity of specialization patterns, 925
Household formation by the young in the United States, 1129

Identification and estimation of complex multivariate lag structures: a nesting approach, 273
Impact of league restructuring on team sport attendance: the case of rugby league, 265
Impact of varying Medigap insurance coverage on the use of medical services of the elderly, 529
Incentives in incentive contracting: an application of the MIMIC model, 337
Incomes policies, inflation and strikes in Nigeria, 1950–1985: an empirical investigation, 587
Industrial invention: a supply and demand model for the UK, 1961–1989, 733
Industry wage effects of horizontal acquisitions in the USA, 519
Inflation and the growth rate in the United States' natural output, 567
Inflationary effects of changes in the effective exchange rates: LDCs experience, 465
Information content of long-term employment forecasts, 593
Input substitution, economies of scale and productivity growth in the US upholstered furniture industry, 1017
Interdependency of personal savings and labour force participation of the elderly, and social security wealth: a time series analysis, 379
Interest rate variability and economic performance: some international evidence, 175
Interest rates in domestic and eurocurrency markets, 1103
International comparison of bank production characteristics and technological change, 45
Intra-industry trade in agrofood sectors: the case of the EEC meat market, 875
Inventory and equilibrium adjustments in international commodity markets: a multi-cointegration approach, 77
Is property crime caused by drug use or drug enforcement policy?, 679

Labour force transitions among low-wage married couples: a simultaneous probability model, 895
Lawyers and medical torts: medical malpractice litigation as a residual option, 989
Linear regression under two separate regimes: an empirical distribution for Quandt's log likelihood ratio, 123
Liquidity constraints as a cause of moonlighting, 1307
Long-run purchasing power parity in the 1920s: the Greek experience, 1301

Macroeconomic determinants of growth: new measurement and evidence on the effect of political freedom, 129
Market power in a non-monetarist inflation model for Greece, 367
Market responses to publicly-provided information: the case of automotive safety, 661
Migration, age, and earnings: the special case of employee transfers, 791
Money, inflation and untested common factors, 581
Money and inflation: a reply, 586
Monopolies and Mergers Commission, merger reports and the public interest: a probit analysis, 27
More evidence on the effectiveness of seat belt laws, 313

Nominal and effective protection in the Egyptian agricultural sector: a multicommodity analysis, 483
Non-parametric approach to dynamic efficiency: a non-parametric application of cointegration to production frontiers, 153
Nutrition and nonparticipation in the US food stamp programme, 945

On the effect of income and relative price on the demand for health care – the EEC evidence: a comment, 1251
On the effect of income and relative price on the demand for health care – the EEC evidence: a reply, 1254
Openness in the Canadian economy: 1870–1988, 1191

Partial static equilibrium model of newsprint recycling, 411
Political instability, country risk and probability of default, 999
Pricing dynamics in the pharmaceutical industry, 103
Productive efficiency of public enterprises: a macroeconomic analysis based on cross-section estimation of a neoclassical production function, 833
Professional versus consumer interests in regulation: the case of the US child care industry, 571
Property prices, tax and expenditure levels and local fiscal performance, 1225
Publication delays in articles in economics: what to do about them, 859

Random walk or bandwagon: some evidence from foreign exchanges in the 1980s, 693
Regional economic impact of a reduction of resident expenditure on cigarettes: a case study of Glasgow, 291
Regulatory reform and productivity growth in the UK's public utilities, 1181
Ricardian equivalence and crowding out in Asia, 19
Robust, non-parametric measures of exchange rate variability, 951

Selection of auditor firms by companies in the new issue market, 247
Self-evaluated health status and smoking behaviour, 429
Short- and long-run adjustments in dairy production: a profit function analysis, 607
Short- and long-run incidence of protection: the case of Madagascar, 257
Some tests of the government's intertemporal budget constraint using US data, 1287
Stochastic trend, weather and US corn yield variability, 513
Stock prices and the effective exchange rate of the dollar, 459
Structural adjustment and the Japanese textile industry: a production theory approach, 437
Student debt and enrollment in graduate and professional school, 669
Stylized facts of investment in Canada, 907

Testing economic theories of voter behaviour using macro-data, 419
Testing efficiency in gambling markets, 85
Testing Ricardian equivalence: a reconsideration, 59

The changing consumption of income transfer programmes: a public choice analysis, 161
The costs of hospital at home: the case of the New Brunswick extramural hospital, 1107
The demand for non-durable goods and endogenous labour supply, 119
The demand for salmon in France: the effects of marketing and structural change, 1027
The demand for standing and seated viewing accommodation in the English Football League, 1155
The effect of the Thatcher government on company liquidations: an econometric study, 935
The environmental economic impact of woodland: a two-stage hedonic price model of the amenity value of forestry in Britain, 715
The fertility effect of dependent tax exemptions: estimates for the United States, 1139
The growth of US labour productivity 1950–1989, 285
The impact of foreign patents on national economy: a case of the United States, Japan, Germany and Britain, 1335
The learning curve in the production of semiconductor memory chips, 885
The nature and extent of the market for high-quality beef in Japan before the abolition of import quotas, 761
The outputs of retail activities: French evidence, 1043
The US retail demand for fish products: an application of the almost ideal demand system, 445
Theory of the firm in relation to exchange rates, import substitution and export, 1345
Thirlwall's Law and balance of payments constrained growth: more on the debate, 493
Transformation bias in the costs and benefits of housing subsidies, 729

Union growth in the Netherlands 1961–1989, 1059
Unions, wages and employment: evidence from Finland, 1275
Unit root tests of the current account balance: implications for international capital mobility, 617

Wage dynamics in Israel: market forces and spillover effects, 969
What does a University add to its local economy?, 305
Wholesale- and farm-level impacts of generic advertising: the case of catfish, 959
